mail: sales@prochemical.eu**TECHNICAL DATA SHEET**

Goods name:	PHTHALIC ANHYDRIDE FLAKES, GRADE A
Specification:	
Quality:	Superior
Appearance:	White flakes and powder

Mass fraction of phthalic anhydride, % no less	99,9
Temperature of crystallization, C, no less	130,9
Mass fraction of iron, %, no more	0,0002
Content of phthalic acid	Absent
Mass fraction of maleic anhydride, %, no more	0,05
Mass fraction of ash, %, no more	0,002
Chromaticity of molten product, Hasen units, no more	
in output	15
within guarantee period for powder and flakes	20
within guarantee period for melt	Not normalized
Chromaticity of molten product after heating at 250 degr.C for 90 min., Hasen units, no more	
in output	40
within guarantee period for powder and flakes	60
within guarantee period for melt
